jcsmileyr.github.io/v2-Portfolio/

Skills

Programming Languages: Java, JavaScript, HTML5, CSS3

Frameworks: Spring Boot, AngularJS, Angular, React, React Native, Node/Express, Bootstrap

Development Tools: Node, Heroku, Git, Github, Adobe XD, VS Code, Brackets, Expo, IntelliJ

Professional Experience

Edge Motors Museum & Baby Grand Design Studio / Paid Freelance Software Developer

April 2019, Memphis, TN

Duties: Develop a car photo android mobile app deployed to a kiosk for a vintage car museum.

- Build components with React Native, HTML, and CSS based on Adobe Photoshop and XD wireframes.
- The final stage was building the SDK, testing on the actual device, and passing the initial stress test of 700 patrons on grand opening day.

Tech Stack: HTML, CSS, JavaScript, React Native

Tools Used: Expo, Android Studio, Microsoft Visual Studio, Trello, Slack, Git, GitHub, Adobe XD.

Case Study available at: jcsmileyr.github.io/v2-Portfolio/

Launch-Code / Teacher Assistant

January 2019 - PRESENT, Memphis

Duties: Teach programming fundamentals, MVC web development, and object oriented programming at a 20 week coding boot camp. My primary focus was guiding students in completing coursework and troubleshooting/debugging code.

Tech Stack: Java, Python, HTML, CSS, SQL, Java Spring, Python Flask

Tools Used: GitHub, Visual Studio, IntelliJ

Mississippi Gaming Commission / Gaming Enforcement Agent V

July 2007 - PRESENT, Northern District

Software/Tools created (not official company software):

- Active Cases: Web app to track the current status of an active case in a portfolio of cases.
- Agent-pedia: Online field guide for gaming law enforcement agents.
- Chasing the 10 Pound Monster: Biggest loser style web app for our health and wellness program

Demo of each software can be found at jcsmileyr.github.io/v2-Portfolio/

Tech Used: React, AngularJS, Node/Express, Heroku (deployment)

Duties: Enforce Mississippi's casino gaming regulations and criminal laws. Conduct training workshops for employees.

Additional Roles: Responsible for office's health and wellness, assists new hires with physical training in preparation for the police academy.

Featured Project

Active Cases

- A progressive web app that is designed to track the current status of an active case in a portfolio of cases for my workplace.
- <https://active-cases.herokuapp.com>.
- Created with React, Bootstrap, Node/Express
- Used HTML5 Local Storage for persistent data

Full portfolio available at jcsmileyr.github.io/v2-Portfolio/

Education

University of Mississippi / Bachelor's Degree in Management Information System

August 2001 - May 2004, Oxford

Community Involvement

Code-Connector: Nonprofit tech organization that help connect beginners with coding and career resources.

- Memphis Chapter Leader/Engagement Manager/ Blog Editor
- North Mississippi Chapter Co-founder
- I was the lead presenter for an "Intro To Web Development" presentation that taught HTML, CSS, and touched on Javascript. I assisted the attendees through the basics of developing their first functional websites.

Hack-Memphis 2018: Collaborated with a small team to build a web app (Posey) in a single weekend. A video recording app that use machine learning to compare a picture of a person posing to the user's pose. My contribution: building the user interface (HTML/CSS/JS)

Give-Camp 2019: Collaborated with a small team to build a WordPress website for a non-profit . (<https://www.sweetcheeksdiaperministry.org/>). My contribution: using the WordPress Divi plugin to build web pages from wireframes.

Smart City Hackathon 2019: Collaborated with a small team to build a mobile app (LookOut) in a single weekend. The objective was to warn drivers of approaching EMS vehicles. While the project wasn't a success, we experimented with React Native for app development and MIT app inventor to demo the app.

Meetups: Dev-Memphis, Memphis Web Workers, Code Connector's Memphis and North MS meetups
